

Andria Trigeorgi | Ph.D. in Computer Science

27a Agiou Ilarionos – 2200 Nicosia – Cyprus

✉ an.trigeorgi@gmail.com • in andria-trigeorgi-24192a145

📧 Andria-Trigeorgi

Profile

Computer scientist specialising in distributed storage systems, with a Ph.D. from the University of Cyprus on dynamic, highly concurrent and strongly consistent file sharing. Experienced in designing, implementing and experimentally evaluating distributed algorithms on large testbeds, and in coordinating research projects.

Experience

Algolysis Ltd <i>Postdoctoral Researcher & Project Coordinator, "ATLAS"</i> Lead research on scalable atomic DSM that unifies multiple DSM instances, covering node clustering, data placement and migration.	Nicosia <i>Oct 2026–Present</i>
Algolysis Ltd <i>Ph.D. Researcher & Project Coordinator, "Ma(R)S"</i> Identified DSM performance bottlenecks with distributed tracing, designed reconfiguration strategies, and built a web platform for deploying DSM instances.	Nicosia <i>Oct 2023–Sep 2025</i>
Algolysis Ltd <i>Special Scientist, "CHARISMA"</i> Adapted the ARES DSM algorithm for low-power, peer-to-peer devices on unmanned vehicle swarms.	Nicosia <i>Jun 2023–Aug 2025</i>
Algolysis Ltd <i>Special Scientist, Research Program "ARES"</i> Took part in the development, implementation and experimental evaluation of algorithms.	Nicosia <i>Mar 2022–Jul 2022</i>
Algolysis Ltd <i>Special Scientist, Research Program "AM-NVE"</i> Designed and ran experimental scenarios to test performance metrics of the proof-of-concept implementation.	Nicosia <i>Oct 2021–Nov 2021</i>
University of Cyprus <i>Special Scientist, Research Program "e4pain"</i> Took part in the ambulatory assessment, experimental evaluation and prediction.	Nicosia <i>Jul 2021–Jan 2022</i>
University of Cyprus <i>Teaching Assistant</i> Courses EPL236 and EPL601.	Nicosia <i>Jan 2020–May 2024</i>
University of Cyprus <i>Special Scientist, Research Program "COLLABORATE"</i> Implemented algorithms for a distributed storage system.	Nicosia <i>May 2019–Apr 2021</i>
University of Cyprus <i>Special Scientist, Research Program "Base"</i> Studied machine and deep learning methods for the processing and classification of human movements.	Nicosia <i>2016</i>

Education

University of Cyprus

Nicosia

Ph.D. in Computer Science

2020–2025

Thesis goal: build a dynamic distributed storage system for highly concurrent and strongly consistent file sharing.
Supervisors: Chryssis Georgiou, Nicolas Nicolaou.

University of Cyprus

Nicosia

Master of Computer Science, Grade 8.64

2016–2018

Thesis: *Data Mining from Psychophysiological Data and Comparative Evaluation of Machine Learning Algorithms* (Grade 10). Supervisor: Chryssis Georgiou.

University of Cyprus

Nicosia

Bachelor of Computer Science, Grade 7.97

2012–2016

Thesis: *A Study of Machine and Deep Learning Methods and their Application on Psychophysiological Markers in Stress Coping* (Grade 10). Supervisor: Chryssis Georgiou.

Publications

Journal Articles

Boosting Concurrency and Fault-Tolerance for Reconfigurable Shared Large Objects 2026

A. Trigeorgi, N. Nicolaou, C. Georgiou, A. F. Anta, T. Hadjistasi, E. Stavarakis. *ACM Transactions on Storage (TOS)*. doi:10.1145/3789204

ARES: Adaptive, Reconfigurable, Erasure Coded, Atomic Storage 2021

N. Nicolaou, V. Cadambe, N. Prakash, A. Trigeorgi, K. M. Konwar, M. Médard, N. Lynch. *ACM Transactions on Storage (TOS)*. doi:10.1145/3510613

Conference Articles

ARES II: Tracing the Flaws of a (Storage) God 2024

C. Georgiou, N. Nicolaou, A. Trigeorgi. *SRDS*. doi:10.1109/SRDS64841.2024.00027

Invited Paper: Towards Practical Atomic Distributed Shared Memory: An Experimental Evaluation 2022

A. Trigeorgi, N. Nicolaou, C. Georgiou, T. Hadjistasi, E. Stavarakis, V. Cadambe, B. Urgaonkar. *SSS*. doi:10.1007/978-3-031-21017-4_3

Fragmented ARES: Dynamic Storage for Large Objects 2022

C. Georgiou, N. Nicolaou, A. Trigeorgi. *DISC*. doi:10.4230/LIPIcs.DISC.2022.25

Fragmented Objects: Boosting Concurrency of Shared Large Objects 2021

A. F. Anta, T. Hadjistasi, C. Georgiou, N. Nicolaou, E. Stavarakis, A. Trigeorgi. *SIROCCO*. doi:10.1007/978-3-030-79527-6_7

Comparing Apples and Oranges or Different Types of Citrus Fruits? Using Wearable versus Stationary Devices to Analyze

P. Konstantinou, A. Trigeorgi, C. Georgiou, A. T. Gloster, M. Karekla. *PsyP*.

Wearable Devices vs. Stationary Equipment: Similar or Different Psychophysiological Signals? 2019

P. Konstantinou, A. Trigeorgi, C. Georgiou, A. T. Gloster, G. Panayiotou, M. Karekla. *ESRII*.

Workshop Articles

CHARISMA: Do You Read Me? 2026

A. Trigeorgi, S. Makri, K. Clerides, A. Hadjipieris, P. Charalambous, I. Kyriakides, E. Stavarakis, N. Nicolaou. *ApPLIED*. doi:10.1145/3820355.3820387

Dynamic Distributed Shared Memory: When & How? 2025

C. Georgiou, N. Nicolaou, A. Trigeorgi. *PaPoC*. doi:10.1145/3721473.3722140

Tracing the Latencies of Ares: A DSM Case Study 2024

C. Georgiou, N. Nicolaou, A. Trigeorgi. *ApPLIED*. doi:10.1145/3663338.3665826

Deployment and Empirical Evaluation of CoBFS in the Emulab Network Testbed 2021

A. Trigeorgi. *ApPLIED*.

Dissertation Research.....	
<i>Robust and Consistent Distributed Storage as a Service</i>	2024
A. Trigeorgi. <i>GEC</i> .	
<i>Robust and Strongly Consistent Distributed Storage Systems</i>	2021
A. Trigeorgi. <i>RCIS</i> (Doctoral Consortium).	

Skills

Programming: Python, C, Java

Operating systems: Linux (Ubuntu), macOS, Windows

Tools: Ansible, Docker, Git, Grafana

Testbeds: Emulab, AWS EC2, Fed4FIRE, Grid'5000

Databases: Cassandra, Redis, InfluxDB, SQL, CouchDB

Other: ZeroMQ, OpenTelemetry, Jaeger, Zipkin, scikit-learn, BioSPPy

Languages

English: CEFR Level B2

IELTS score 6.5
